Programming Languages: Python, C , C++ , Javascript, ReactJS , MongoDB , SQL, NodeJS

Tools: Git, VS Code, AWS, MySQL Workbench , MongoDB compass, Jupyter Notebook

WORK EXPERIENCE

Major Project Intern

KIET Group of Institution

Resume Parser & AI Interview Bot

February 2023 - ongoing

- Developed Advanced machine learning algorithms to revolutionize resume parsing in an AI-driven application, leveraging natural language processing (NLP) for unparalleled accuracy and efficiency.
- Led development of an AI interview bot, enhancing interview efficiency and candidate evaluation accuracy through machine learning and NLP expertise.

Project Intern

TechnoHack EduTech

Commercial Website Clone

Aug 2023 - Sep 2023

- Innovatively revolutionized web concepts, crafting captivating digital experiences across multiple projects within an intense month at TechnoHacks, setting new industry standards for innovation and engagement.
- Inspired by innovation and swift adaptation, we led transformation with precision. Our contributions to the team ignited solutions that surged across the web, leaving a trail of digital brilliance.

PROJECTS

Twitter Sentiment Analysis

Machine Learning & NLP

[Link](#)

- Leading a groundbreaking Twitter sentiment analysis initiative, harnessing cutting-edge technologies to discern and track real-time public sentiment trends with unparalleled precision.
- Orchestrated the development of a robust sentiment analysis model for Twitter data, employing advanced ML and NLP techniques to categorize tweets into positive, negative, or neutral sentiments with accuracy of 77%.

Job Portal Website

ReactJS, MongoDB ,ExpressJS

[Link](#)

- Led the pioneering development of a transformative job portal platform, seamlessly connecting job seekers with providers, revolutionizing the employment landscape with unmatched efficiency and effectiveness.
- Applied full-stack web development technologies to deliver comprehensive job information, notifications, and a robust hiring platform for companies.

Food Restaurant Website

HTML , CSS & Javascript

[Link](#)

- Initiated the development of a responsive food restaurant website tailored for fast-food enthusiasts, with a focus on front-end development, igniting innovation and excellence in the digital culinary landscape.
- Interwove an intuitive user interface with a comprehensive menu, specialties, and captivating visuals, ensuring seamless navigation and elevating the dining experience.

CERTIFICATES

- AWS cloud Course Completion [Link](#)
- Frontend Web Development Certificate by Infosys Springboard [Link](#)
- Intern Certificate in TechnoHacks EduTech [Link](#)
- CISCO cybersecurity course completion Certificate [Link](#)

EXTRACURRICULAR ACTIVITIES

- Participant & Winner** in Billards during Annual Inter College Sports Fest - 16 feb 2024- 18 feb 2024
